

Project Design Phase

Data Flow Diagram & User Stories

Date	1 july 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	4 Marks

Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored.

User Stories

User Type	Functional Requirement (Epic)	User Story Number	User Story / Task	Acceptance criteria	Priority	Release
Admin	Dataset Management	USN-1	As an admin, I can upload the HDI dataset (CSV) into the system for analysis.	Dataset is uploaded successfully without errors.	High	Sprint-1
Admin	Data Preprocessing	USN-2	As an admin, I can clean missing values and preprocess the dataset before model training.	Cleaned dataset is generated successfully.	High	Sprint-1
Admin	Data Validation	USN-3	As an admin, I can validate the uploaded dataset to ensure data quality.	Invalid or missing values are detected and reported.	medium	Sprint-1
Researcher	Model Training	USN-4	As a researcher, I can train the machine learning model using the processed HDI dataset.	The model is trained successfully and saved.	High	Sprint-2
Researcher	HDI Prediction	USN-5	As a researcher, I can predict the Human Development Index for a country using the trained model.	Predicted HDI value is displayed correctly.	High	Sprint-2
Researcher	Model Evaluation	USN-6	As a researcher, I can evaluate the model using R ² Score, MAE, RMSE, and MSE.	Performance metrics are displayed correctly.	High	Sprint-2
User	Data Visualization	USN-7	As an analyst, I can view graphs and charts representing HDI trends and predictions.	Charts and graphs are generated successfully.	medium	Sprint-3

user	Report Generation	USN-8	As an analyst, I can generate reports containing prediction results and evaluation metrics.	Report is generated successfully in downloadable format.	medium	Sprint-3
user	Dashboard	USN-9	As an analyst, I can view a dashboard showing HDI predictions, model performance, and visual insights.	Dashboard displays all prediction results and charts correctly.	medium	Sprint-3
